Soft Skills

- Problem-Solving Skills
- Analytical Thinking
- Attention to Detail
- Adaptability and Flexibility
- Collaboration and Teamwork:
- Curiosity and Continuous Learning:
- Resourcefulness and Troubleshooting
- *. Creativity and Innovation*
- *Research Skills*

Programming skills

- Thorough understanding of HTML, CSS, JS, and responsive web design
- Bootstrap (Framework)
- Experience with server-side technologies like Next.js and PHP
- Laravel Framework
- React.js, Vue.js, jQuery UI
- Object-Oriented Programming (OOP)
- Linux , Ubuntu system

languages

- Arabic (Native)
- English (Fluently)
- German (B1)
- Turkish (A1)

About Me

I'm a Web Developer and content creator in social media , also i a passion for tech. I started as a student at Ostim-Tiknik. I built many projects by self and became a Fullstack developer.

My favorite part of programming is the problem-solving aspect. love the feeling of finally figuring out a solution to a problem. My journey has taught me to adapt and innovate in the fast-changing world of web development.

Professional Experience

Iraq Techno Company | Web Developer
September 2021 - May 2022

- Developed responsive websites for high-tech clients
- Created interactive web apps with React.js and Strapi
- Conducted code reviews and troubleshooting
- Improved competencies in project collaboration and client interaction
- Documented development processes and created technical documentation
- At Iraq Techno, I enhanced my skills in modern web development methods and technologies.

Orinet Company | Front-End Web Developer
Febr 2019 - Nov 2019

- Developed and maintained e-commerce web interfaces using HTML, CSS, and JavaScript
